football-pitch-booking.jo | Deployment Report

29 May 2026 | Deployed by: Ali Al-Obeidat

Live URLs

Frontend	football-pitch-booking-liart.vercel.app	Vercel
Backend API	football-pitch-booking-production.up.railway.app	Railway
Database	ep-hidden-shadow-aqgzfsli.c-8.us-east-1.aws.neon.tech	Neon

Steps Completed Today

1

Neon — Created PostgreSQL Database

Created project 'football-pitch-booking' on Neon with PostgreSQL 17, US East region. Ran the full SQL schema: 4 tables (users, pitches, bookings, refresh_tokens), ENUMs, indexes, and GIST EXCLUDE constraint for double-booking prevention. 16 queries executed successfully.

2

Railway — Deployed Go Backend

Connected GitHub repo to Railway. Set Root Directory to /backend so Railway builds only the Go service. Added 7 environment variables: DATABASE_URL, JWT_SECRET, JWT_ACCESS_EXPIRY, JWT_REFRESH_EXPIRY, BCrypt_COST, APP_ENV, SERVER_PORT. Deployment successful on Go 1.26.3.

3

Railway — Generated Public Domain

Generated public domain via Networking > Generate Domain on port 8080. Backend is now accessible at the Railway URL above.

4

Vercel — Deployed Next.js Frontend

Connected GitHub repo to Vercel. Set Root Directory to /frontend. First deployment auto-detected Next.js. Added NEXT_PUBLIC_API_URL environment variable pointing to Railway backend. Redeployed to apply the variable. Status: Ready.

Tech Stack

Layer	Technology	Version	Platform
Frontend	Next.js + TypeScript + Tailwind CSS	Latest	Vercel
Backend	Go + Gin Framework	1.26.3	Railway
Database	PostgreSQL + pgx/v5	17	Neon
Auth	JWT + bcrypt + httpOnly Cookies	-	-

Environment Variables

Variable	Service	Purpose
DATABASE_URL	Railway	Neon PostgreSQL connection string
JWT_SECRET	Railway	JWT signing key
JWT_ACCESS_EXPIRY	Railway	15m – access token lifetime
JWT_REFRESH_EXPIRY	Railway	168h – refresh token lifetime
BCRYPT_COST	Railway	12 – password hashing cost
APP_ENV	Railway	production
SERVER_PORT	Railway	8080
NEXT_PUBLIC_API_URL	Vercel	Railway backend base URL

Important: The Neon database password was shared in chat. Change it from Neon Dashboard > Settings > Reset Password, then update DATABASE_URL in Railway.
